Katrina,
See Below (Related to our earlier conversation about cultural/historical significance at the Wilcox Site).
From what I understand, this information could be provided after the RI is completed as the size/shape of the site could change.

Thanks
Todd

I suggest you forward to Katrina, so her contractors can do this during the RI.

Amy

Thank you Judy. Yes, we were not invited to a meeting on May 19th concerning this project. Mr. Downham, the Historic and Cultural Preservation Department is the proper entity at the Muscogee (Creek) Nation that deals with reviewing undertakings that may potentially effect cultural resources, sacred sites and traditional cultural properties within Oklahoma as well as our homelands in the southeast.

Please provide our office with a letter that describes the project with a good legal description, a colored topographic map of the area marked with the area of potential effect, and any background information the EPA has concerning historic or prehistoric resources within 1 mile of the project area. As Judy has noted, it is very helpful when an agency also provides us a shapefile to incorporate into our GIS system to help with the review of the potential impact to cultural resources. Please send this initial letter to consult with our tribe concerning cultural resources to our Tribal Historic Preservation Officer, Mr. Emman Spain, our Traditional Cultural Advisor, Mr. David Proctor and myself. Our emails are: espain@mcn-nsn.gov<<mailto:espain@mcn-nsn.gov>>, proctord@mcn-nsn.gov<<mailto:proctord@mcn-nsn.gov>>, jjacobs@mcn-nsn.gov<<mailto:jjacobs@mcn-nsn.gov>>. If you have any information or comments as well about this project from the State Archaeologist or the SHPO office, please forward those too. Also, please let us know who the Cultural Resource contact is for the EPA. If you have any questions, please let us know.

Thank you,

Ms. Johnnie Jacobs

Thanks, Todd...would it be possible to get the shape files for the site boundaries? This would aid our Cultural Preservation group in determining any areas of interest on our part. Thanks for your help with this.

Judith,

As a follow up to our meeting on May 19th, we discussed potential cultural or historical significance of the land that is part of the Wilcox Site.

Below is a link to an interactive map that may be helpful in determining those significances.

<http://deq.maps.arcgis.com/apps/PublicInformation/index.html?appid=cf15c913e5624b87bfe725cd7152e579>

Thank you for attending the meeting on the 19th. Feel free to call Katrina or myself with any questions about the site, or the Superfund process.

Have a great day.
